

# Acute Vascular Access: Techniques and Complications

## 09:20-10:20 Infections in central venous catheters

09:20-09:40 Microbiology of CRBSI

09:40-10:00 Checklists to decrease CVL infections

10:00-10:20 Which site? The role of femoral catheterization

## 10:20-11:00 Pro/Con debate: Use of special catheters to reduce CRBSI

10:20-10:40 Antibiotic impregnated catheters are useful and cost effective

10:40-11:00 Special catheters increase expense but do not improve outcome

## 11:00-11:30 Coffee break

11:30-11:50 PICC lines: Bedside or in the radiology suite?

11:50-12:10 Using US for peripheral line insertion

12:10-12:30 Subclavian revisited: complications of central line insertion

12:30-13:00 Pulmonary embolism: State of the art

## 13:00-14:30 Lunch

14:30-16:00 Workshop: PICC line insertion (Advance registration. Max 20 persons)

# The Israeli Vascular Access & Vein Conference

January 12th, 2011

Daniel Hotel, Herzlia, Israel

- החברה הישראלית לרדיולוגיה פולשנית
- האיגוד הישראלי לכירורגית כלי דם
- האיגוד הישראלי לטיפול נמרץ
- האיגוד הישראלי לנפרולוגיה ויתר לחץ דם

## Organizing Committee:

Dr. E. Atar, Dr. G. Bartal

Prof. A. Bass, Dr. A. Kantarovsky

Dr. E. Segal, Dr. D. Shemesh

Dr. M. Tal

# Conference Program

08:00-08:25 Registration, coffee, visit the exhibition

**08:30-09:10 Opening Session, Chairs: Bartal Gabriel, Atar Eli, Tal Michael**

08:30-08:35 Opening ceremony

08:35-08:45 Prevention of central venous catheter related infections Tal Michael, ISR

08:45-09:00 Management of catheter-related bacteremia Allon Michael, USA

09:00-09:10 Management of radiation dose to patient and staff Bartal Gabriel, ISR

## Second Israeli Vascular Access Conference

**09:20-11:00 Dialysis Access Session**

**Chairs: Chemla Eric, Lazarides Miltos, Atar Eli**

09:20-09:30 Vascular access center, Shaare Zedek Experience Olisha Oded, ISR

09:30-09:40 Vascular access: Timing of creation and the ideal preoperative assessment Goldin Ilya, ISR

**Vascular access surveillance**

09:40-09:55 Current evidence for vascular access monitoring Allon Michael, USA

09:55-10:00 Vascular access surveillance: Is it justified? Shemesh David, ISR

**Surgical or endovascular treatment for the non-matured vascular access?**

10:00-10:08 Endovascular Atar Eli, ISR

10:08-10:15 Surgical Lehmann Yonatan, ISR

10:15-10:25 The use of stent grafts in central vein stenosis and occlusion Verstandig Anthony, ISR

10:25-10:35 Should we treat asymptomatic central venous stenosis? Berelowitz Daniel, ISR

10:35-10:45 Alternative approaches for dialysis catheter access Atar Eli, ISR

10:45-11:00 Complex access in case of central venous occlusion Chemla Eric, UK

11:00-11:30 coffee break and visit the exhibition

**11:30-13:30 Second Session**

**Chairs: Baktiroglu Selcuk, Allon Michael, Verstandig Anthony**

**Prosthetic Grafts for Vascular Access**

11:30-11:45 Vascular access in the lower limbs Lazarides Miltos, Greece

11:45-12:00 Early stick grafts: are they really beneficial Baktiroglu Selcuk, Turkey

12:00-12:10 Do heparin bonded grafts do better? Goldin Ilya, ISR

12:10-12:25 Are fistulas always better than grafts? Allon Michael, USA

12:25-12:35 Upper limb access construction in SVC occlusion Rabin Igor, ISR

12:35-12:45 Thrombectomy/lysis – is there a best technique? Bloom Allan, ISR

**Hemodialysis in elderly patients**

12:45-13:00 Vascular access in the elderly patient: an overview Chemla Eric, UK

13:00-13:10 Vascular access in octogenarians: The Shaare Zedek Experience Hijazi Jamal, ISR

**Miscellaneous**

13:10 -13:20 "Fistula Nurse" Developing "Fistula First" Lahav Bat Sheva, ISR

13:20-13:30 Fistula Needling: Button-Hole versus Rotation Technique Israeli Ruthy, ISR

13:30-14:30 Lunch and visit the trade exhibition

**14:30-16:00 Case Presentation Workshop.**

**Chairs: Bloom Allan, Shemesh David**

**Vascular Access Complication Management – 5 min case presentation session**

1. Endovascular management of access aneurysms, video Verstandig Antony, ISR

2. Surgical management of access aneurysms Lazarides Miltos, Greece

3. Surgical management of steal syndrome Kantarovsky Alexander, ISR

4. Radiological management of steal syndrome Verstandig Anthony, ISR

5. Management of vascular access infections Yoffe Boris, ISR

6. SVC thrombus in central vein catheter 1 Chudakov Gregory, ISR

7. SVC thrombus in central vein catheter 2 Zaghal Ibrahim, ISR

8. Management of valves causing stenosis Shemesh David, ISR

9. Management of central venous stenosis ipsilateral to planned access creation Bloom Allan, ISR

10. Management of venous stenosis during access surgery Goldin Ilya, ISR

16:00 Adjourn

## Israeli Vein Congress

**09:30-11:00: First varicose veins session.**

**Chairs: Elias Steve, Tal Michael**

09:30-9:45 Introduction: Disease, anatomy, Great Saphenous Vein, Small Saphenous Vein Bass Arie, ISR

09:45-10:00 Endovenous ablation Laser, Radiofrequency. Franklin Ian, UK

10:00-10:15 New technologies for ablation of large veins. Elias Steve, USA

10:15-10:30 Steam ablation of varicose veins: current experience Milleret Rene, FRANCE

10:30-10:40 Perforator ablation: Techniques and indication Franklin Ian, U.K.

10:40-11:00 Update on liquid and foam sclerotherapy - techniques, complications and outcomes Goldman Mitch, USA

11:00-11:30 Coffee break and visit the exhibition

**11:30- 13:30 Second session varicose vein, chairs: Elias Steve, Bass Arie**

11:30-11:45 Complications of varicose vein treatment Nitecki Sami, ISR

11:45-11:50 Tumescant anesthesia technique and complications Goldman Mitch, USA

11:50-12:00 Proximal GSV recanalization after endovascular ablation Vuylsteke Marc, Belgium

12:00-12:10 Phlebectomy techniques and avoiding complications Vuylsteke Marc, Belgium

12:10-12:20 Setting up office based local anaesthetic vein units Franklin Ian, UK

12:20-12:30 Recurrence of varicose veins after ablation King Ted, USA

12:30-13:30 "Don't Just Sit There" Moderator: Elias Steve, USA  
Panelists: Franklin Ian, UK, Goldman Mitch, USA, Milleret Rene, France, Vuylsteke Marc, Belgium, Bass Arie, ISR, Tal Michael, ISR, Goldman Mitch, USA, King Ted, USA.

*This session encourages attendees to ask our panel questions about venous disease management. During the meeting and prior to this session, attendees will be able to submit questions on special forms.*

13:30-14:30 Lunch and visit trade exhibition.

**14:30-16:00 Varicose veins and Deep Vein Disease, Chairs: Kantarovsky Alexander, Verstandig Anthony**

14:30-14:45 Deep veins disease: Introduction, implications, complications Bass Arie, ISR

14:45-15:00 Duplex ultrasound venous hemodynamic mapping King Ted, USA

15:00-15:15 Treatment options for deep vein thrombosis: DVT intervention Bloom Alan, ISR

15:15-15:30 Management of superficial thrombophlebitis Kantarovsky Alexander, ISR

15:30-15:45 Update on IVC filters Verstandig Anthony, ISR

15:45-16:00 Venous disease of the pelvis: implications and treatment options Belenki Alex/Tal Michael, ISR
